STAINLESS STEEL PIPE WALL SLEEVES WITH PUDDLE FLANGES

Alberta - British Columbia - Calgary - Edmonton - Vancouver - Lloydminster

Stainless steel wall sleeve puddle flanges. 1 inch to 120 inch diameters.

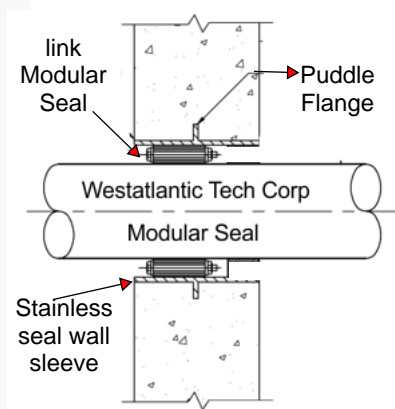

Assembles include link modular seals with stainless steel bolting - pipe sealing underground.

Read More

APPLICATIONS

Pipes through concrete walls and floors, 6 inch to 36 inch
Split series sleeves for existing pipe
Oil and Gas Pipelines with oil resistant NBR sealing elements.
Sewer Line manhole sealing
Treatment plant piping

Stainless steel pipe sleeves with puddle flange wall collars with 36 psi link modular seals provide leak free solutions. **Westatlantic Tech Corp** are experienced solution suppliers for all piping projects.

ADVANTAGES

Puddle Flange part of sleeve assembly
Split assembly for existing pipe with bolt or weld up closures
No special tools required
Flush with wall forms, no cut accommodation requirement
Easy pipe centering where link Modular seals are installed
Easy sealing if pipe not centered with off center disk seals
Excellent corrosion resistance
Resistance to chemicals
High mechanical strength
Can accommodate all pipe sizes through concrete walls

Long length stainless steel sleeves are available with multiple puddle flanges along the sleeve bore.

Angled pipe penetrations through walls require custom sleeves to accommodate any angle of penetration. Special seals for watertight sealing form part of incline wall sleeve assembly.
