

High Pressure Restraint Pipe Couplings - Bolt Secured

WA HP couplings are used when it is unsafe to weld pipes. They are also used to reduce downtime while replacing spool pieces. Clamp and thrust screws are provided.

Sizes available: 1-1/2" through 48"

Seals: **Buna 'N'**

Other seal material like **Viton** are available on special request

Body Material: ASTM A516 Gr. 70

COATING OPTIONS:

- Marine epoxy paint for corrosion protection
- NACE MR0175/ISO 15156 compliant material.
